

ERRATUM

Volume 18, No. 1 (Spring, 1995) p. 138.

In “State notation for teaching about behavioral procedures” by J. Michael and E. Shafer, there is an error in the state diagram shown as Figure 13B. The output from State 3 should be altered by adding a semicolon and OFF Light after “OFF Tone.” In other words, the actual input:output information should be “R2: ON SR: OFF Tone; OFF Light.”
